I obtained a BA (Hons) , MA and PhD in Political Studies from the University of the Witwatersrand (WITS). I was based in Johannesburg at the Electoral Institute of Southern Africa (EISA) and the Centre for Policy Studies (CPS) as a researcher before relocating to Durban where I held senior researcher posts at the African Centre for the Constructive Resolution of Disputes (ACCORD) and the Centre for Civil Society (CCS), University of KwaZulu-Natal (UKZN). My research interests include social movements, social protest and civil society in general. I am also interested in funding flows to civil society, in particular, social justice / social change philanthropy.
